Wrangell Team Defeat Petersburg

There is no getting away from the fact that Wrangell has the fastest and best basket ball team in Alaska, and last Saturday night they defeated the last team in this part of the country when they won from Petersburg by a score of 36 to 12.

The Wrangell team left here early Saturday morning on the Karen and arrived in Petersburg early in the afternoon. The game was called at 8 o'clock. A large number of boosters for the boys made the trip over and rooted for the home team during the game. The game was a very good one, although the Wrangell boys are much faster than the Petersburg team, but although they played a losing game they played for all they were worth.

After the game all Wrangellites were invited to the big Firemen's Ball, where they all attended as the guests of the Firemen. The dance was a great affair and every Wrangellite there had the time of their life. The dance lasted until four A. M. and the music throughout the evening was of the very best.

The Wrangell team returned home Sunday with the knowledge that Petersburg gave the team the best reception of any of the cities they have played this year.

The Petersburg team will be in

School Show Saturday Night

"Cinderella in Flowerland" is the title of the pretty little four act play to be given by the school children at the Rink next Saturday evening. Thirty-one of the school children appear in the play, and they have all mastered their respective parts so the play will be a big success and it is the duty of every citizen to attend as they are assured a delightful evenings enjoyment.

The general admission to the play will be 25 cents and reserved seats will be 35 cents. Seats may be reserved at the Walsh Bakery. Below we reprint the program for the evening.

Grindali Bay Oil Station

A party of Standard Oil officials recently visited Southeastern Alaska and selected a site for a big depot at Grindali Bay, about forty miles from Ketchikan and not far from the fishing station at Shakan. It is reported that the Standard Oil will take over the townsite at Grindali bay and will establish a large oil station there.

Wrangell on February 27th to play the return game and it is up to us here to show them a good time.

Reported That Delhi Afloat

It is rumored here that the wrecked steamer, Delhi, floated the first of the week and went ashore where it was found by Jimmie Sales of the Taku. They pumped the water out of her and patched up the holes as best they could and towed her to Ketchikan. We are unable to learn the particulars.

Wm. Ferguson Accidentally Drown

Wm. Ferguson, the well known traveling man of the Pacific Coast Biscuit Company, was drowned by falling into the flume carrying water to the shingle mill at Ketchikan on February 12th. His body was recovered and taken to Juneau. The coroners jury returned a verdict of accidental drowning.

For Sale

A fully equipped gas boat, 35 feet long, 10 foot beam; two cylinder 15 h. p. Truscott engine, 4 cycle. Storage batteries, magneto wet cells, etc. For only \$350. Call and see C. D. Livesay, Wrangell.

A good show at the Wrangell Photoshow tonight.

Firemen's Ball Monday Night

Next Monday night is the big annual Wrangell Firemen's Ball to be given by the Wrangell Fire Department at the Rink. The Firemen are noted for their big annual dances and this one gives honor to be the biggest one yet. The dancing will start promptly at nine and will last as long as anyone cares to dance. The music will be furnished by the Wrangell Orchestra providing Prof. Kronmier arrives in time and if not the Filipino Orchestra will play, any way good music will be on tap and everyone is assured a good time.

By permission of the Chief both fire bells will ring the night of the dance, so when you hear the bell come on down for the fun is ready to start.

The Firemen's dance is something that every citizen of Wrangell should patronize, as the firemen are here for the protection of the town and the money derived from the evening will go towards keeping up that organization.

The admission to dance will be one dollar, and a bounteous supper will be served during the evening in the hall at 25 cents per plate. So lets everyone be on deck and help the fire boys along and have a good time for the evening.

We have the goods, the Rink.

Vermont Returns From Trip Below

The big tender Vermont of the Vermont Marble Company of Tokeem, Capt. Farrer, arrived up from the sound last Saturday night. The Vermont has been extensively overhauled during her stay in Tacoma and is now in first class shape for the coming seasons work. She left for Tokeem Tuesday morning.

Sentinel Receives Jones Report

The Sentinel is in receipt of the full report of Dr. E. Lester Jones Deputy Commissioner of Fisheries on his Alaska Investigations, and it can be seen at our office by any one interested. The report carries several hundred illustrations which will go far in explaining the subject to Eastern people not familiar with the existing conditions in Alaska. Comment was made on the report in a recent issue and with the pictures it is a much thorough one.

Notice

Notice is hereby given, that the book for the registration of voters for the coming municipal election to be held Tuesday, April 6th, 1915 is now open at the Patenaude Building and will remain open until April 1st, 1915.

Printing Point Does Not Bob Up and Down

In an L. C. Smith & Bros. Typewriter the point-on-the paper which is to receive the type impression is stationary at the instant the type hits. The carriage does not bob up and down when the shift is made to write capitals.

Why?

Because the type is shifted—not the carriage.

The only movement of the carriage is back and forth on its closely adjusted ball bearing runways—and this does not take place while the print is being made. There is no lifting of the carriage.

This is one reason why L. C. Smith & Bros. typewriting is free from blurs and every letter in the right place.

WEST COAST NEWS

F. E. BUTLER, EDITOR : Craig, Alaska

Ground has been cleared and prepared at Waterfall, by the Oceanic Cannery Co., for the construction of additional warehouses and bunk house.

A. Z. Doty, who has conducted a pool room and cigar and tobacco store here for the past three or four years, has sold out and is contemplating going to the westward or the inside seeking out a new location. We are loth to lose Mr. Doty and his estimable wife, if only for a short time, for of course they will come back all right.

The writer received a postal card from Capt. I. D. Nordyke a few days ago written from Seldovia Bay, near Seward, in which he asserts that that is the coming country and we are ready to agree with him, in fact we believe the whole of Alaska is a coming country.

Since the beginning of the European war we have talked with a great many persons of foreign birth, all of whom are congratulating themselves that they are in free America; for, had they remained in their native countries they would have been impressed into the service and forced to expose themselves to the hail of shot and shell now devastating the countries of Europe. Well, it is pretty good to be in a country that does not force its citizens to go to war against their will and principles, even if, as many of those of foreign birth have asserted that all of our governing officials are grafters and controlled by a greedy plutocracy. It is barely possible however that one of the good results of this inhuman and ungodly war will be to set our citizens of foreign birth to thinking about and studying the real and fundamental principles of our government, and not be longer hoodwinked and bamboozled by the irresponsible press and street corner calamity howlers and agitators.

Our fair Territory will soon be again afflicted with a second case of legislature. It is to be hoped that the solons selected to prepare the legislative mulligan for our infant territory, will be more careful and discreet in their preparation of the legislative hodgpodg they mix up than the last. It was all right to pass the law extending the right of franchise to women, it appearing that that was about all the last legislature did that stood the test of the higherups, escaping no

Clippings From Our Exchanges

The Hub roadhouse on Long creek, Ruby district, was recently destroyed by fire just after the proprietors had put in a big outfit for the winter.

Verna Ohls, of Cordova, was convicted of cruelty to his dogs by beating them with clubs and chains and was fined \$25 and costs, making a total of \$100. In default of payment he was remanded to jail and will serve it out at the rate of \$2.00 per day.

doubt, from the fact that no objections were raised, the married men being afraid of disturbing their domestic equilibrium and the single men being to chivalrous to protest. But seriously we believe there are men in the present legislature who are honestly interested in the welfare of the Territory and will make strenuous efforts to enact some much needed legislation. One matter that we have in mind that should claim their early and careful consideration and to which we would like to call their attention. As we understand it there is quite a sum of money, from \$40,000 to \$60,000, in the hands of the territorial treasurer, placed there under the federal statutes by the forest officials, to be used by the territory for school purposes outside of the incorporated towns, and for the construction of roads and trails in the territory. This money was derived from the sale of timber, stumpage, etc. from the forest reserve (almost the entire amount coming from Southeastern Alaska) and is only awaiting the enactment of proper legislation by the Territorial legislature, prescribing manner, method and by whom the same shall be applied and expended. We do not think it fair or just to the people of the Territory that the amount designated to be used for roads and trails be turned over to the Federal road commissioner, as has been suggested, nor do we believe it was the intention of Congress to have it so placed or they would have left it with the forest officials. Therefore we think it is plain that Congress fully intended to place this money in the hands of the people of the Territory to be applied by them, upon the theory that they know best how and where to use it to attain the best results. We do not desire to appear presumptuous in the matter, but would suggest that a commission be created one of whom shall be designated as "Road Commissioner", who shall have charge, superintend and direct all work authorized by the commission, said commission to consist of three members, as a larger number would be unwieldy. One of the qualifications of said commissioners should be that they be citizens of; and have continually resided in the Territory for at least ten years next preceeding their appointment, thus securing men that belong here, and are familiar with conditions, climatic and otherwise; during all seasons of the year. That portion of the fund designated for educational purposes should of course be under the control of the superintendent of public instructions.

Wrangell In Some "Poetry"

The following little "poem" was handed into the Editor the first of the week by one of our well known subscribers, and for the fact that he is a good paid up subscriber and that some time ago we sent out notices asking for communications, we publish it.—Editor.

There is a little town called Wrangell, nestled down beside the sea, Where the people always jangle, and somehow can't agree. They have their 400, and they have their cheap-skates too And they wrangle and they jangle as if that's all they had to do. They quarrel about the Doctors; the Dentist and the Priests, Some claim they are angles, while others say that they are beasts. Which side is in the right of it, it is very hard to tell, But I hope they will all stop wrangling by the time they get to h—l.
